

## Matlab -3

## Examples

3.1 Plot the straight passing through the points (1,3) and (2,4).

```
line([1 ,3],[2 ,4])
```

3.2. Define x as a vector of linearly spaced values between 0 and 2 . Use an increment of  $\pi/100$  between the values. Plot y as sine values of x

```
x = 0:pi/100:2*pi;  
y = sin(x);  
plot(x,y)
```
